

### ABOUT THE INSTITUTION

The Sethupathy Government Arts College, Ramanathapuram, a premier post graduate teaching and research institution providing quality education to youth, has been growing consistently 22 different educational programs (10 UG courses Tamil and English medium and 8 PG courses, Ph.D programs in various disciplines). The college has started in the year 1965-1966. Now it is one of the grade one college, under the Directorate of collegiate education, government of TamiNadu. The college has been serving as a beacon light in the backward area of Ramanathapuram District, emphasizing teaching, learning and research programme in different disciplines for the benefit of thousands of rural students who pursue higher education.

### ABOUT THE DEPARTMENT

The department of Physics is one among the oldest department in the college. Established in the year 1977-1978, the department was upgraded to Post graduate Level in the year 2013-2014. Department of Physics is equipped with a team of highly qualified and enthusiastic faculty members with profuse knowledge and experience. Moreover to kindle the scientific temper of students well equipped laboratory and library are made available for enriching their skills and knowledge. Research in thrust areas such a thin films, synthesis of Nanoparticles, Nanocomposites and crystal growth are being carried out. Numerous research papers have been published in reputed National /International journals by the Faculty members.

### ABOUT THE CONFERENCE

ICNMA -2025 provides an international forum to present and discuss the latest research findings, emerging technologies, and innovative applications in nanostructural materials and their application for society. The conference aims to foster collaboration, inspire innovation, and advance knowledge across various domains related to materials and applied sciences for society. We look forward to welcoming you to this exciting event, promises to be a dynamic exchange of ideas and a step forward in shaping the future of materials and applied sciences for society.

### Focused area:

- Nanomaterials & Applications
- Thinfilms
- Crystal growth and Applications
- Energy storage devices
- Super conducting materials
- Sensor & smart materials
- Surface, Interface Technology
- Organic, inorganic & Biomaterials
- E-waste Recycling
- DFT analysis

### CHIEF PATRON

**Dr. P. SEENUVASAKUMARAN**

Principal
